

Graduate research assistanceships starting fall 2009 (international applicants eligible)

Research Area(s):

- (1) Environmental Impacts of Nanomaterials
- (2) Air Pollution Control

Two positions for graduate researchers are available in the *Nanomaterials & Air Pollution Research Group* in environmental engineering in the Department of Civil and Environmental Engineering at the University of Tennessee at Knoxville. Research projects will be related to (1) air quality control using nanomaterials and (2) understating environmental applications and impacts of nanotechnology and nanomaterials, such as carbon nanotubes and microporous activated carbon. Enthusiastic individuals with a B.S. or M.S. degree in chemical engineering, civil & environmental engineering or materials sciences are desired. Pre-requisites will apply accordingly. Applicants from foreign countries will also be considered for the positions. Interested applicants should contact Dr. Sandeep Agnihotri (sagnihot@utk.edu). Dr Agnihotri's research website is : <http://www.engr.utk.edu/civil/people/people.php?id=sagnihot>
