

Department of Civil & Environmental Engineering
ENV 508 - Environmental Engineering Seminar Series
Spring 2009

Wednesday: 12:20 - 1:10 p.m., 217 Perkins Hall

Date	Speaker	Topic/Title
January 21	Dr. Kevin Robinson Associate Professor and Program Coordinator- Environmental Engineering, UT	“Animal Manure and Biosolids Application to Agricultural Land: Perception of Health and Safety Risks”
January 28	Joseph Parker M.S. Graduate, CEE University of Tennessee	“Ecohydrology Relationships in the Smokey Mountains”
February 4	Dr. Randall Gentry Associate Professor and Director- Institute for a Secure and Sustainable Environment, UT	“Sustainability Science: A Hydrologic Perspective from the Basin Scale”
February 11	Dr. Susan Pfiffner Center for Environmental Biotechnology, UT	“Looking for Life in all the Wrong Places”
February 18	Dr. John Buchanan Associate Professor Biosystems Engineering, UT	“ Engineering Aspects of Soil-Based Wastewater Dispersal Systems”
February 25	Pyoungchung Kim PhD Graduate, CEE University of Tennessee	“Hydrogen Storage and VOCs Adsorption on Metal Organic frameworks (MOFs)”
March 25	Oubeid Aziz Ph.D. Student, CEE University of Tennessee	“ Paleo Pacific Ocean Sea Surface Temperatures and Upper Colorado River Streamflow”
April 1	Cody Moser Ph.D. Student, CEE University of Tennessee	“ Weather Modification and Climate Variability Impacts on Streamflow”
April 8	Dr. Glenn Tootle Assistant Professor University of Tennessee	“Glacier Variability in Teton National Park”
