

JOINING THE MAINTENANCE AND RELIABILITY CENTER
“where industry and academia meet”

DUES:

\$ 3,000 per year for companies with 1,000 or less employees

\$ 10,000 per year for companies with over 1,000 employees

Dues may be set up on any 12 month cycle

PAPERWORK:

A simple one-page application

BENEFITS:

- a) Attend and participate in semi-annual MRC “Best Practice” member meetings. Gather and share information about the best practices, systems, and technology in maintenance and reliability. Company membership allows multiple representatives from each company to attend.
- b) Network and develop contacts with key personnel from other member companies – both at the meetings and in-between.
- c) Become eligible to participate in the MRC Maintenance and Reliability Intern Program. This unique program locates interested students, assists in the placement process, and provides upfront training leading into a 13 week summer experience that helps students see the opportunities in this field and allows the employers to consider the students for future positions.
- d) Receive discounts to MRC conferences, short courses, and specialized reliability and maintenance engineering trainings.

MAINTENANCE AND RELIABILITY CENTER (MRC)
The University of Tennessee, Knoxville, TN
College of Engineering

Application for Company Membership

(Company Name) _____ is applying to become a member of the Maintenance and Reliability Center (MRC), an industry/university partnership dedicated to improving industrial productivity through advances in reliability and maintenance engineering. The individual named below is the primary contact person for participation in MRC activities.

Signed: _____ Date: _____

(Title)

Contact Person:

Name _____

Title _____

Street Address _____

City, State, Zip _____

Phone _____ Fax _____

Advancing to Research Sponsor (Optional)

“where industry and academia meet”

FEE:

\$10,000 per year for companies with 1,000 or less employees

\$30,000 per year for companies with over 1,000 employees

PAPERWORK:

A contract which details company and University rights

PROJECT ORGANIZATION:

A team of faculty, graduate students and/or other partners undertake the project and report regularly to sponsors. Personnel from sponsors are encouraged to visit and participate in project activities as well as monitor project progress.

BENEFITS:

- a) MRC Research Sponsors may pool resources with other member companies to accomplish needed research on a common reliability or maintenance engineering problem at less cost for each sponsor.
- b) MRC Research Sponsors receive: full disclosure of the results of all (not just project funded by joining member) current ongoing MRC research projects; royalty-free internal use rights; and the opportunity to obtain commercial use rights.
