\***Technical Electives** are selected from upper division mathematics, chemistry, physics and engineering courses and must be pre-approved by the department advisor. Courses in Nuclear Engineering other than 500, 502 and 598 may also be used as technical electives.

### Progression

The first two years of the curriculum are considered to be lower-division and the two remaining years upper division. Students must apply for progression to departmental upper division courses, which depends on academic performance. Factors considered include overall grade point average, performance in selected lower division courses and evidence of orderly progression through the prescribed curriculum.

### Full Status

A lower-division student may apply for progression to upper division after completing CHEM 120\* or CHEM 128\*, CHEM 130\* or CHEM 138\*, MATH 141\* or MATH 147\*, MATH 142\* or MATH 148\*, MATH 231, EF 151\* or EF 157\*, EF 152\* or EF 158\*, NE 200, and PHYS 231\*, with a grade of C or better in each, and an overall GPA of at least 2.5.

### Provisional Status

Students who have completed CHEM 120\* or CHEM 128\*, CHEM 130\* or CHEM 138\*, MATH 141\* or MATH 147\*, MATH 142\* or MATH 148\*, MATH 231, EF 151\* or EF 157\*, EF 152\* or EF 158\*, and PHYS 231\* with a grade of C or better and have an overall GPA between 2.0 and 2.5 may apply for provisional status. The granting of provisional status is based on the availability of space in departmental programs after full status students have been accommodated. Provisional status students are required to demonstrate their ability to perform satisfactorily in upper-division by attaining a minimum GPA of 2.5 in the first 9 hours of 300-level required nuclear engineering courses. Award of upper-division full status is dependent upon this performance. Students who have not progressed to upper-division will be dropped from departmental courses.

Students also have opportunities for an Honors Concentration and/or a five year BS/MS program. See the Undergraduate Catalog for details and requirements.
